Bay Medical Center Qualified Medical Provider (QMP) Program Candidate Criteria
(Non-Emergency Area)
Guidelines – January 2010

Patients with the following non-urgent complaints and triage findings may be sent to Rapid for Medical Screening Exam after being triaged. A patient must have an assigned triage classification of Level IV Non-urgent or Level V Referred.

1. Age between 2 and 64
2. No fever (T>100.4) or low Temp <96.1
3. No abnormal vital signs
   a) Adult vital signs appropriate for QMP referral
      i. Pulse between 60 and 100
      ii. Respirations between 12 and 22
      iii. Blood Pressure 100-155 systolic 55-100 diastolic
   b) Pediatrics please refer to age specific chart (attached)
4. Pulse oximetry >94%
5. No open lacerations
6. The patient must be able to:
   a) Ambulate without assistance
   b) Have a normal mental status
   c) Be immunocompetent by hx (no HIV, Lupus, and chemotherapy or active oncologic disease)

7. The following common non-urgent or referred complaints may be referred to Rapid:
   a) Minor contusions, sprains and skeletal injuries without swelling or deformity or evidence of neurovascular compromise
   b) Simple Musculoskeletal complaints without neurological deficits (back pain, neck pain with minimal, or no injury, etc.)
   c) Minor abrasions
   d) Insect bites or stings without evidence of infection or anaphylaxis
   e) Sore throat without airway obstruction or drooling
   f) URI systems without respiratory compromise
   g) Earaches
   h) Dental Problems
   i) Medication refills
   j) Chronic pain management
   k) STD evaluation (exposure, simple penile or vaginal discharge)
   l) Suture removal, scheduled and unscheduled rechecks
   m) Rash without fever
   n) Request for non-emergent test
8. Additional Exclusion criteria. Patient with the following chief complaints may not be sent for a MSE:
   a) Chest Pain
   b) Palpitations
   c) Syncope
   d) Pregnancy
   e) Vaginal bleeding
   f) Abdominal pain
   g) Shortness of breath
